

High efficient winding system
 with 3 Credo-tech winding machines.

Process example	Min
core in the core holder	0,15
wire loading	0,7
Winding 1800 turns/0,08Ø	3,5
remove the core	0,2
Total cycle time	4,55

One operator wound toroidal coils on 3 machines in the same time.
 Credo-tech winding machines are very convenient because of the small dimensions 250x350mm

Please ask Credo-tech for your free winding-process calculation.
 We provide coil winding solutions and support you can rely on.
